H&N ELECTRIC**Timken Power Systems**

4224 East B St.

Pasco, WA 99301

Phone: (509) 547-1691

Business: As part of Timken Power Systems (TPS), H&N Electric provides a diversity of electromechanical services and supply options to its customers, both in-house and in the field. We are staffed with professionals that have an extensive knowledge of electric motor repair from fractional to multi-thousand horsepower. Our full service repair shop includes a Vacuum Pressure Impregnation system (VPI), full machine shop, and motor test stand including dynamometer to load test your motors to simulate real world conditions. Being part of the Timken Power System allows us access to the intellectual property of Philadelphia Gear (also part of Timken Power Systems), for virtually every industrial gearbox application. Our mechanics have the ability to inspect, balance, repair and recondition your gearboxes, fans, pumps and any other rotating equipment. Our field service team can come to your facility and perform vibration checks, thermography, and Baker Winding Analysis to keep you informed and ensure your equipment operates when you need it the most. From basic overhaul, to complex upgrades, to installations and new equipment sales, we offer our customers a true one-stop-shopping experience.
